The Illinois Minority Graduate Incentive Program (IMGIP) was established in 1985 with Higher Education Cooperation Act (HECA) funds provided by the Illinois Board of Higher Education. The Illinois Consortium for Educational Opportunity Program (ICEOP) was established by the Illinois General Assembly and signed as Public Act 84-785 on September 21, 1985. The purpose of IMGIP and ICEOP is to increase the number of underrepresented faculty and professional staff at Illinois institutions of higher education. To accomplish this objective, IMGIP has provided fellowship and other support to 219 students from underrepresented groups who are pursuing doctoral degrees in the life sciences, physical sciences, computer science, engineering and mathematics at eleven doctoral institutions in the state, while ICEOP has provided fellowships to 923 students from underrepresented groups who are pursuing masters, doctoral and first-professional degrees in open fields of study at 33 participating institutions in the State.

This directory is published annually in an effort to facilitate the placement of fellows in appropriate faculty, staff, and/or postdoctoral positions in an Illinois college or university. The primary objective of this directory is to aid Illinois colleges and universities in the recruitment of highly educated underrepresented persons to their faculties and staffs.

The directory is organized by field of study, and degree. Most of the fellows included in this directory are recent degree recipients. However, there are some fellows who completed their degrees during the early years of IMGIP and ICEOP, yet continue to express a desire to work in Illinois higher education. The information provided includes basic demographic data, including underrepresented group, as well as field of study, specialization, institution, dissertation/thesis title, research activities and/or interests, and date of availability.

The IMGIP/ICEOP Boards and administrative staff recognize that program success is dependent on a collaborative effort between students, universities, colleges, and the community. We elicit your assistance and cooperation as we strive to position our institutions and the state to compete locally, nationally, and globally.

The directory is accessible in a downloadable version at the IMGIP/ICEOP website: www.imgip.siu.edu. Please feel free to contact the IMGIP/ICEOP Administrative Office at (618) 453-4558 should you have suggestions for future directories.

JENNIFER M. GRANHOLM GOVERNOR DAVID C. HOLLISTER DIRECTOR

The Future Faculty Fellowship Program was created by the Michigan legislature in 1986 as part of the larger Martin Luther King, Jr. • César Chávez • Rosa Parks (KCP) Initiative to increase the pool of African American, Latino and Native American candidates pursuing faculty teaching careers in postsecondary education. The Future Faculty Fellowship Program is one of the six components the KCP Initiative uses to achieve parity in the number of baccalaureate and graduate degrees awarded to students traditionally underrepresented in the higher education system.

Future Faculty Fellows are eligible to pursue a master's or doctoral degree at the public universities in Michigan. Future Faculty Fellowship graduates are obligated, by signed agreement, to remain in postsecondary faculty teaching or administration in a public or private, 2- or 4-year, in-state or out-of-state postsecondary institution for a minimum of three (3) years equivalent full-time.

This directory lists individuals who have granted or will be completing their degree requirements in the near future. The directory is published annually to assist Fellows and postsecondary institutions with meaningful first connections leading to faculty job placements.

We are extremely proud of the level of expertise and outstanding accomplishments of our KCP Fellows. We hope you will take a moment to review their credentials and consider each of them appropriately suited to one of your faculty vacancies.

The King • Chávez • Parks Initiative, as the oversight body for the Future Faculty Fellowship Program, will update this directory annually with our Illinois Minority Graduate Incentive Program (IMGIP) and Illinois Consortium for Educational Opportunity Program (ICEOP) partners. We welcome any suggestions you may have for improvement. Our telephone number is (517) 373-9700. Please fell free to download additional copies of the annual directory at one of the following websites: www.imgip.siu.edu or at www.michigan.gov/mdcd where you may find the directory by clicking on the Career Preparation link, then the Postsecondary Services link, and scrolling down to King • Chávez • Parks Initiative.
